

**ARE YOU LOOKING FOR
A PLACEMENT FOR
THE SUMMER?**

**HAVE YOU JUST
COMPLETED A GRAPHIC
DESIGN OR A DESIGN AND
COMMUNICATION DEGREE?**

**ARE YOU GRADUATING
THIS SUMMER?**

**IF YOU HAVE ANSWERED
'YES' TO ALL THE ABOVE
THEN WE MAY BE ABLE
TO HELP.**

glow

Glow would like to offer a summer work placement to a suitable graphic design graduate. The placement would be based in our bright, modern offices and studio at Knowle Village Business Park, near Fareham. At the end of the summer, providing the placement has been successful, we would love to offer you a permanent, paid position.

During the placement you will be able to work with our in-house designer and gain valuable insight into the business of print and project management as well as hands on experience designing for clients.

The placement does not carry a salary but expenses will be paid. During busy periods, we sometimes need to outsource design projects and if we consider the project suitable, we will pass the work to you and you will be paid for completing it.

You may be required to attend meetings with clients to define specifications and to take part in project updates with internal staff as required.

We have a 24" iMac waiting for you to use and you should, ideally, be proficient in the use of Adobe Creative Suite CS3. We use Photoshop, Illustrator and InDesign. There will be ample opportunity to hone your skills using this software and you need not be an expert.

Glow's standard working hours are 37 per week with an 8.30am start. The placement could be agreed for either full or part time depending on your availability.

Glow will be visiting University end of year and summer shows with a view to finding our ideal graduate.

We hope to see you there!
